 - 2.1.1. **New internet connection:** If you are procuring a new internet connection subscription, the RFS date depends on when the new internet connection subscription begins. STARHUB'S SERVICE SPECIFIC TERMS AND CONDITIONS
UNIFIED THREAT MANAGEMENT

2.3. When we accept your application form for the Service, we will notify you of the commencement date for the provision of the Service and this date will be known as the ready for service ("**RFS**") date. The RFS date will be stated in our application form. We reserve the right to change the RFS date without liability.

2.4. If we are unable to provide the Service by the RFS date, then you may either:

2.4.1. cancel that part of the Service which we are unable to provide by the RFS date, without being liable to pay any cancellation Charges; or

2.4.2. accept that part of the Service which we are ready to provide, and pay for the same at our prevailing rate(s).

This shall be your sole and exclusive remedy and you shall have no claim against us for our failure to provide the Service by the RFS date. We have no further liability to provide the Service by the RFS date.

2.5. If you request to defer the provision of the Service to a date after the RFS date we originally agreed to, you will be liable to pay a reservation fee at our prevailing rate(s).

2.6. If it is due to the failure to provision the first main line and if you accept that part of the Service which we are ready to provide and pay for the same at our agreed/prevaling rate(s), you will have no other claim against us for our failure to provide the Service on or before the RFS date.

2.7. If you cancel your application for the Service before the RFS date, you shall pay us our prevailing cancellation Charges (currently set at S\$302.80 inclusive of 8% goods and services tax ("**GST**") or such other cancellation Charges as we may prescribe from time to time) per order.

2.8. We are responsible for the Service (including the rental of the CPE) to you. The point of demarcation for such responsibility is up to the CPE. We will not be responsible for any fault or issue that occurs beyond the CPE in your network. Where facilities and/or resources are provided by you, we will not be responsible for any fault or issue that occurs arising from such facilities and/or resources. During Service activation, we will reasonably endeavour to ensure that the policies you have requested and submitted to us have been implemented in the CPE.

2.9. We do not support any third-party equipment or services which you may choose to connect to the CPE, particularly the MSA appliances. You will need to engage other third-party suppliers to setup, configure/re-configure, reconnect, maintain or troubleshoot any issues related to such third-party equipment or services. If we consider it necessary to replace any of the CPE for any reason (e.g. due to device fault or obsolesce) we will only replace the relevant CPE, and not all the other third-party equipment and services connected to such CPE. In such event you may wish to arrange, at your own costs, for such third-party support to be present when our FE is at the site to reconnect and reconfigure such third-party services and equipment to the new MSA appliance. We will not be liable for any costs, expenses, disruptions, inconvenience, interference or interruptions or any losses that you may suffer arising from the replacement of the relevant MSA appliance with regard to such third-party equipment or services.

2.10. You must notify us in writing if we have failed to implement the policies you have submitted to us and which we accepted. We will correct our failures that have been brought to our attention at our own cost. The foregoing shall constitute our sole liability and your exclusive remedy for such failures.

2.11. Our business hours are from 9 am to 6 pm, Mondays-Fridays (excluding Saturdays, Sundays and public holidays). You may request for installation or relocation works to be carried out outside our business hours. In such case, we shall impose an additional one-time charge ("**Non-Working Hours Charge**") based on our prevailing after-office hours installation Charge. This Non-Working Hours Charge will still be imposed if you cancel or postpone an appointment less than 2 hours before the scheduled appointment time, or if you fail to grant us access or be present at the scheduled appointment time for our FE or contactors to carry out the necessary works.

Such renewed term shall be considered a Minimum Period of Service.

3.2 In computing whether or not you have fulfilled the Minimum Period of Service, any period for which the Service is suspended or ceased will not be counted. If the Service is suspended or ceased and subsequently reactivated, the Minimum Period of Service will be automatically extended by such period of suspension or cessation.

3.3 If we agree to any changes to the Service as requested by you (including any upgrade to the Service) or the renewal of the Service, we are entitled to require the Minimum Period of Service to be re-commenced from the date the Service is changed or renewed.

3.4 For the purpose of the renewal or the re-contract, we may require that you change any existing CPE that you are using, or allow us to update or upgrade it as may be required.

4.4. Upon termination of the Service, if we require, you will return the CPE to our specified address or dispose of it in such manner that we approve. If we do not require you to return or dispose of the CPE, you shall stop using the CPE immediately upon termination of the Service. Any continued use of the CPE by you shall be in breach of this Agreement and solely at your own risk. We will not be responsible or liable to you for any such use.

4.5. Promotion rates are applicable for a limited period of time only. At the end of the applicable Minimum Period of Service, the promotional rates shall not apply and the rates shall revert to our prevailing rates (i.e. non-promotional rates) for the renewals. Please contact your StarHub account manager early for renewals.

4.6. You cannot request for any Service suspensions even if your main line is suspended for any reason.

We will review each request and inform you if we would accept such request. We will charge you for any further requests exceeding 6 times made in a calendar year.

5.5. To the fullest extent allowed by the law, we do not give any assurances, guarantees, or warranties, either express or implied, in relation to the use of the Service or the performance and/or condition of the internet connection. You acknowledge and accept that the performance of the Service is dependent and conditional on the performance of the internet connection that you use in relation to the Service.

5.6. If there is a reported faulty CPE, our FE will endeavour to restore your internet connection services first if the internet connection is provided by us. Subject to our supporting hours, our FE will then endeavour to restore the MSA Services, which may be carried out the next business day. If your internet connection is not provided by us, you will have to ensure that the internet connection issues are resolved before our FE can commence work on the restoration of the MSA Service.
